I. Software Overview

Score Master is a very easy-to-use meet management and score keeping system. It is the most dependable and widely used software in the United States. It has been used in over 35,000+ gymnastic meets since 1987 and is currently used in 12 countries and 47 states. The product is used at all levels: international, national, regional, state, sectional, invitational and local. The software comes with a 90-day unconditional money-back guarantee. That is how strongly we believe in the product.

The system can be used for artistic / rhythmic / trampoline & tumbling, men's and women's, compulsory / optional, team / individual competitions. Standard reports include: Team Roster, Meet Roster, Competitor Cards, Program Sheets, Heat Sheets, Score Sheets, Winner Sheets, Winner Labels, Team Score Sheets, Team Winner Sheets, USAG Score Sheet and NCAA Score Sheet.

The software was written for end-user parents who know nothing about gymnastics or computers. The system comes with a very comprehensive user guide, which walks the user, keystroke by keystroke, how to set up and score a meet. Non-computer persons can be taught to enter scores in 2 minutes.

II. Features and Functions

Overview

- Women's & Men's Competitions
- Artistic, Rhythmic & Trampoline & Tumbling
- Compulsory and/or optional
- Competition formats include: FIG, USAG, YMCA, NCAA, High School, AAU, USAIGC and many more ...
- Unlimited number of user definable Level/class's
- Unlimited number of user definable Age groups
- User definable event long names and short names
- Has the most comprehensive reporting capabilities – powerful selection criteria, sorting, HTML & Excel output
- Can be used on any Pentium PC using MS Windows '95, '98, NT, 2000 or XP
- Comprehensive on-line user guide
- Uses Microsoft Access '97 for a database with pre-built queries – so you can change and retrieve data without using Score Master (MS Access is NOT required to run Score Master)

Team

- Unlimited number of teams (women's or men's).
- Unlimited number of team members.
- Tracks the following team information: name, sponsor, coach, address, phone.
- Tracks the following gymnast information name, ID, competitor number, class/level, age, rotation, team member, T-Shirt size, event indicators and much more ...
- Rosters can be downloaded from the USAG website (a USAG login ID is required)
- Ages are automatically calculated based on an "As of date" associated with each level/class
- Age Groups are automatically assigned and can be manually over ridden
- T&T – levels can be assigned on a per event basis
- T&T – a team can have both men and women members
- Re-calc & re-assign feature will re-calculate ages and/or re-assign age groups for competition format changes
- Rosters can be imported from a text file
- Rosters can be exported to a text file
- Check duplicate feature checks for duplicate names and USAG #'s
- Ability to print roster from entry screen for data verification
- Ability to re-use roster for multiple meets
- Ability to copy a team

Meet

- Unlimited number of meets (men's or women's)
- Unlimited number of teams per meet
- Scores multiple meets at one time (men's or women's)
- Unlimited number of competitors per meet (no level/class or age limit)
- Tracks the following meet information: sponsor, location, date address, phone numbers, teams participating, judges, tie breaking, team scoring, type of meet and more ...
- YMCA Option - Honors all places
- Break ties option
- T&T – a meet can be for both men and women
- Ability to input 4 judges names & USAG # names per event
- Ability to copy an entire meet
- Ability to edit competitors in a spreadsheet screen
- Ability to automatically assign competitor numbers and manually over-ride
- Ability to automatically create rotations

Meet Financials

- Track all finances regarding a meet
- Track balances per account and ability to print out statements
- Setup budgets for any part of a meet
- Ability to track actual income and expenses versus budgets
- Software auto-calculates meet entry fees – team and individual
- All information can be exported a Excel worksheets
- Report on actual transactions, budgets and entry fee calculations

Score Entry

- Speed Score Option – Quick entry of scores – search on number, name
- Scores can be entered by competitor number
- 1, 2, 3, 4, 5, 6 judges scores can be entered per gymnast per event
- 2 judges' scores = both scores are averaged
- 3 judges' scores = all 3 scores are averaged
- 4 judges' scores = the high and low scores are dropped and the middle 2 scores are averaged
- Start values can be inputted per judge
- A start value can be inputted and then up to six execution scores can be inputted, averaged and deducted appropriately according to FIG guidelines
- Neutral deduction can be inputted
- Bonus score can be inputted
- Difficulty score can be inputted
- 2 vault scores can be inputted the system automatically selects the highest average
- Score Verification report displays missing scores
- Tie breaking option
- Scores are never lost, even with a power failure

Reporting

Score Master has many standard reports. If a different report format is desired, all reports can be printed to a file and edited using any word processor. All reports may go to printer, screen, file, Excel, HTML or FTP'd directly to a website. A group of reports and the selection criteria can be created before the meet to save time and eliminate mistakes during that "high pressure – get the reports out" time period.

Team Roster - Report given to coaches to verify their gymnasts' name, USAG number, class/level, age group and rotation.

Meet Roster - Report printed after meet is set up to verify teams participating, number of gymnasts in each level and age group, event judges and total competitors in meet

Program Sheet - Report printed before meet can be used to hand out to spectators for tracking scores.

Rotation Sheet - Report printed before meet can be used for rotation schedule combined with program sheet.

Rotation Schedule - Report printed before meet can be used for rotation schedule for coaches / spectators.

Competitor Cards – Competitor cards are printed on blank paper.

Heat Sheets - These sheets can be used for meets that ask that the scores be written down typically at the event by the judge. Selectivity based on: level, age group, rotation, team and event.

Missing Scores Sheets - These sheets can be used highlight scores that have not been inputted. Selectivity based on: level, age group, rotation, team and event.

Score Sheets - These sheets can be used to verify that scores have been entered accurately. Selectivity based on: level, age group, rotation, team and event.

Winners Sheets - This report has all the information for announcing the awards. Selectivity based on: level, age group, rotation, team and event.

Winner Labels for Ribbons - Selectivity based on: level, age group, rotation, team and event.

Team Score Sheet - This report displays each team and competitor and indicates how the team score was calculated. Selectivity based on: level, age group, rotation, team and event.

Team Winner Sheet - This report ranks each team and shows team and event totals. Selectivity based on: level, age group, rotation, team and event.

USAG Score Sheet - This report has been certified by the USA Gymnastics as an official results report. Selectivity based on: level, age group, rotation, team and event.

NCAA Score Sheet - Official score sheet for NCAA competitions. Certified by NCAA.

Qualifying Report - This report displays gymnasts based on a compulsory and/or optional and/or combine all-around score range. This is a great tool for deciding what the threshold is for a state meet.

IV. Score Boards

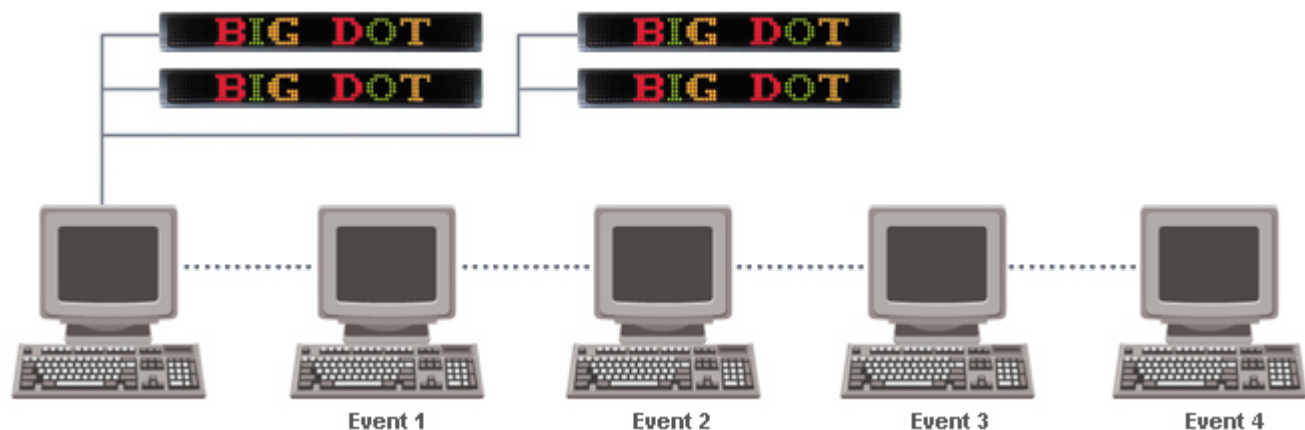

Score Master - Network Version – configuration #1

- Score Master network version
- Displays at each event – 2.5" high character LED message display – 75 feet visibility
- Local Area Network supplied by end-user (wired or wireless)
- Scores are input from each event and written to a single database on the server
- Requires Adaptive Micro System's displays – Betabrites or Big Dots (purchased at www.EliteScore.com)

Score Master - Network Version – configuration #2

- Score Master network version
- All Displays in one location for easy viewing – 4" high character LED message display – 200 feet visibility
- Local Area Network supplied by end-user (wired or wireless)
- Scores are input from each event and written to a single database on the server
- Requires Adaptive Micro System's Big Dot displays (purchased at www.EliteScore.com)

EliteScore - Score Board MDX

- Score Master network version
- Single score board for all events - 4" high character LED message display – 200 feet visibility
- Scores are input from each event and written to a single database on the server
- Completely wireless from the server to the Palm Pilots and MDX Score Board
- Requires the www.EliteScore.com MDX Score Board
- Requires the www.EliteScore.com wireless palm pilots

Big Screen TV, Projector, Large Computer Monitor

- Score Master network version
- Uses the multi-monitor support of Windows XP or later editions

V. Support and Upgrades

Score Master is an extremely dependable system. It has been scoring competitions successfully since 1987. It has never failed in competition. The software is very durable, even if power is lost during the meet, no information will be lost.

Support

Support is available via email. A great deal of time and effort was spent writing the User Guide and we ask that you look in the documentation before calling.

Upgrades

Upgrades are developed and offered on an as needed basis. The cost of each upgrade is dependent on the effort required to enhance the product. The product will be kept in compliance with the rules and regulations that govern gymnastic competitions via upgrade offerings.

VI. Technical Information

The product was written using Microsoft's Visual Basic 5.0 and the database is MS Access. It will work under Microsoft Windows '95, '98, 2000, XP or higher.

- Developed using Microsoft Visual Basic version 5.x
- Uses Microsoft's Access 97 database (Access is NOT required to run Score Master). Microsoft's Access database was chosen because it is the standard "low end" database and "power users" could easily access the data.
- Microsoft Access Queries have been pre-built for reporting purposes, so a "power user" can create their own reports when using Access.
- Farpoint's Spread 3.x product is used to display data in a spreadsheet format.
